

Host CUWiP at your institution!

Expressions of Interest are accepted on a rolling basis, but all interested applicants must submit a formal proposal by November 1.

The primary goal of the Conferences for Undergraduate Women in Physics (CUWiP) is to increase recruitment and retention of undergraduate women in physics by

1. communicating the breadth of education and career paths open to physics majors;
2. disseminating information and advice on applying for summer research, graduate school and professional employment;
3. providing opportunities to share experiences, advice, and ideas with women at different stages of their education or career paths.
